Manufacturer's no. 0244906

Plug-In Coupling SKU Gas PS 5 bar

GOK

Information

Pack size 17 x 10 x 4 cm

Net weight 70 g

Gross weight 70 g

For quickly connecting pipe lines with hose lines, including a protective cap. The gas flow is shut off when the coupling is disconnected.

The SKU plug-in coupling must always be used in conjunction with a check valve. Only the standardised STN quick nipples are to be used for connection with the hose line.

Thanks to a special mechanism, the SKU plug-in coupling is tamper-proof – unlocking is only possible using the STN plug nipple.

Specifications

Max. pressure: PS 5 bar
