Sika® Primer-207 Primer for Adhesive Surfaces, 100 ml

Information

Pack size	9 x 5.5 x 5.5 cm
Net weight	100 g
Gross weight	190 g
Catalogue page	402

Specifications

Colour	black
Content	100 ml

- Sika® Primer-207 is a black solvent-based primer that reacts with moisture and forms a thin layer (film-forming). This layer acts as a bonding agent between the substrate and the adhesive.
- Sika® Primer-207 has been specially developed for the pre-treatment of bonding surfaces in combination with Sikaflex® adhesives.This primer shows excellent adhesion on many substrates even without prior use of Sika® Aktivator.
- Sika® Primer-207 fluoresces for a limited time under long-wave UV light. This property is used for process control.

Advantages:

- Improved adhesion to a wide range of substrates
- Visible under UV light
- Easy to apply
