## MPPT Solar Controller 20 A up to 290 W

**ANTARION**

### Information

|                |                 |
|----------------|-----------------|
| Dimensions     | 122x36x79 mm    |
| Pack size      | 12.5x9.5x4.5 cm |
| Net weight     | 330 g           |
| Gross weight   | 450 g           |
| Catalogue page | 601             |

The Antaron MPPT solar controllers are powerful, compact devices for optimally charging 12 V lithium or lead batteries. Thanks to MPPT technology (Maximum Power Point Tracking), the energy yield from solar panels is increased by up to 30%.

With a robust metal housing (IP32), overload and temperature protection, as well as an adjustable charging voltage, the controllers are ideal for recreational vehicles, boats and off-grid applications.

### Specifications

|                  |       |
|------------------|-------|
| Colour           | black |
| Charging current | 20 A  |
| Material         | metal |
| Nominal capacity | 290 W |
| Nominal voltage  | 12 V  |
| Nominal current  | 20 A  |
