Optimal protection and comfort

Experience optimal protection and comfort with the black-out system for the Ford Transit V363. Specially designed for recreational vehicles, this pleated front windshield blind protects your privacy and ensures pleasant temperatures through efficient cold and heat insulation.

Easy installation and precise fit

Thanks to the easy installation and precise retrofitting for the Ford Transit V363 Facelift models introduced from June 2019, you can enjoy a high level of functionality. The black-out system is suitable for both left-hand and right-hand drive vehicles.

Efficient cold and heat insulation

The aluminium-coated material keeps heat and cold out and can be adjusted in three positions. This allows you to always have the perfect combination of privacy, shade and temperature control.

Factory look

The retrofit looks like the original, as if it were installed directly in the factory. Enjoy the high-quality look and perfect integration into your vehicle.
