Check Valve with Ventilation

Information

Dimensions	60x27 mm
Pack size	6x2.7x2.7 cm
Net weight	10 g
Gross weight	10 g

Check valve with integrated ventilation for Comet submersible pumps. It ensures a reliable water flow and prevents water from flowing back when the pump is switched off. The valve fits the models ELEGANT, ECO, VIP, LUX, GEO and GEO-DUPLO-PLUS as well as all more powerful PLUS variants. It is simply clipped onto the pressure side of the pump and is ready for immediate use.

Specifications
