Mobile Oven with Special Glass Lid, RoadBaker Model G

Information

Dimensions	29.5x26x16 cm
Pack size	28.5x28.5x13 cm
Net weight	785 g
Gross weight	1.14 kg

The RoadBaker Model G brings culinary variety to travel and every camping kitchen. Be it crispy rolls, savoury casseroles, moist cakes or flavourful pizzas – this mobile oven makes cooking and baking on the go as easy as at home. Thanks to innovative technology, high-quality materials and thoughtful design, the RoadBaker impresses both when camping and in everyday use.

The specially developed, heat-resistant glass lid allows you to keep an eye on the baking process at any time without lifting the lid. This saves energy and ensures even baking results.

The 2.8-litre baking pan with modern ceramic non-stick coating guarantees that food releases effortlessly and leaves hardly any residue.

The RoadBaker is ready to use immediately and requires no installation. It can be used on almost any heat source (not suitable for induction) – ideal for maximum flexibility on the go and at home.

- **Heat-resistant glass lid:** monitor the baking process without heat loss
- **2.8-litre baking pan with ceramic non-stick coating:** no sticking, easy to clean
- **Robust aluminium housing:** extra reinforced and conductive for even heat distribution
