Gas Stove Kinjia Stove

PRIMUS

Information

Dimensions	47.3x32x32 cm
Pack size	47.5x29.5x7.8 cm
Net weight	3.7 kg
Gross weight	4 kg
Catalogue page	498

This two-burner stove is compact, lightweight and designed to be easily transportable for an excellent cooking experience wherever you are. This essential item for any campsite comfortably accommodates 2 large pots and can feed your entire extended camping family. Each burner can be lit and operated independently, allowing outdoor cooks to use multiple pots at different temperatures. That way, the sauce can simmer slowly while the water boils thanks to the 3000 W flame. Made from die-cast aluminium, this slimline stove will be a faithful companion for years to come. The internal pan supports and drip tray are easy to remove for cleaning. Simply close it for storage – this stove with its slim profile can be stored almost anywhere.

- Lightweight and compact for convenient travelling
- Food can be prepared in several pots at different temperatures on the two burners.
- The wood-wrapped handle is designed for transport and locks the stove when closed, while a spring locking mechanism holds the regulator in place.
- Pan support and drip tray can be easily removed for cleaning
