

Item no. 309/959

Manufacturer's no. 47000-00145

iNet X Pro Panel

Information

Dimensions	120x96x31 mm
Pack size	23 x 15.5 x 6.5 cm
Net weight	474 g
Gross weight	584 g

With the Truma iNet X Pro Panel, you control the most important comfort products and control elements in your vehicle and benefit from practical services.

- **Intuitive:** operation via touchscreen and free app
- **Practical:** useful services, such as a timer
- **Upgradeable:** updates can be conveniently carried out via the app
- **Mobile:** control possible on the go

Operated via a 4.3" touchscreen. Everything is set with just a few clicks. Thanks to integrated Bluetooth, the Truma iNet X Pro Panel can also be conveniently controlled via the free Truma iNet X app. This way, you can turn up the heating from bed or start the night mode of the air conditioning.

There are also many other useful functions, such as a timer or specific assistance in case of faults. With the Truma iNet X Connect, connected devices can even be controlled remotely. Starting the heating from the ski slope – no problem thanks to the Truma iNet X system.
