Bodywork Protection TEROSON® PU 9500 FOAM

TEROSON.

Information

Pack size 24.9x8.9x7.3 cm

Net weight 420 g

Gross weight 600 g

Bodywork protection – noise control.

TEROSON® PU 9500 FOAM is a two-component PU insulating foam for A, B and C pillars, door sills and frames. Perfect for reinstalling preformed acoustic parts. The foam blocks the propagation of airborne sound in cavities and prevents unwanted sound radiation and vibrations. It provides excellent sealing against water and dust ingress and is flame-retardant. The product is OEM-specified. TEROSON® VR 10 is recommended for surface preparation.
