

Item no. 322/769
Manufacturer's no. 13501032

Hitech Lithium Button Cell, Lithium Coin CR2032

Information

Dimensions	3.2 x 20 mm
Pack size	6.5 x 5.7 x 1 cm
Net weight	30 g
Gross weight	50 g

The high-quality VARTA button cell Lithium Coin CR2032 were developed to reliably supply small electronic devices with energy. The battery delivers maximum power for pulse and continuous discharge applications. All VARTA lithium button cells are packaged in childproof packaging and fulfil the highest safety standards. Perfect for various smart home devices and standard applications such as car keys, remote controls, scales and many other small electronic devices. Best quality and service life guaranteed.

- High capacity for longer runtimes
- Up to 70% more energy for long-lasting and reliable performance*
- Low internal resistance and self-discharge
- Guaranteed high performance and an extended storage time of up to 10 years

*Disclaimer: up to 70% more energy compared to IEC 60086-2 14.0. Electronic key test MAD. Performance may vary depending on use.

Specifications

Colour	silver
Content	1 piece
Nominal voltage	3 V
Type	CR2032
