Pack size	27 x 24.3 x 3.1 cm
Net weight	150 g
Gross weight	240 g
Catalogue page	663

The foldable, flexible muffin pan is space-saving and ensures easy filling and optimal removal of the baked goods. With sample recipes.

With the flexible silicone muffin tab you can bake up to 6 muffins of any kind at the same time. Whether sweet or savoury – in no time at all you can conjure up fine finger food and on top of that, press them out of the mould easily with the pop-out effect. Subsequent cleaning is child's play thanks to the smooth surface (no grooves). After use, you can fold the mould completely, which makes it particularly space-saving.

As a rule, the silicone baking mould does not need to be greased. The material is food-safe, tasteless and resistant to fruit acids. The surface is easy to clean.

Together with the Omnia oven, the silicone mould can be used on almost all cookers, even over an open fire. There is nothing you cannot prepare in the moulds to please your family or friends.

- Temperature resistant from -60 °C to +260 °C
- Microwaveable
- Suitable for the dishwasher
