Information

Dimensions	200x80 cm
Pack size	43x23x23 cm
Net weight	2.1 kg
Gross weight	2.5 kg
Catalogue page	96

Comfortable, easy to clean and versatile

The Alaska sleeping bag offers reliable warmth and high sleeping comfort at temperatures around +5 to 0 °C. The outer material made from specially treated „Pongee“ polyester is not only breathable and water-repellent, but also feels particularly pleasant against the skin. The high-quality SLII (Supreme Loft II) hollow fibre provides effective insulation and a pleasantly soft lying sensation – ideal for nights in a tent or in a camper van, or as an extra blanket at home.

A continuous zip allows you to connect two sleeping bags to transform them into a spacious double sleeping bag. The sleeping bag is also easy to clean: just put it in the washing machine on a delicate cycle. However, spinning should be avoided to protect the filling. To dry, simply lay it out flat.

The sleeping bag is delivered in a practical compression bag, which makes it space-saving and easy to transport.

Advantages:

- Comfort temperature range: approx. +5 to 0 °C
- Outer material made from breathable, water-repellent „Pongee“ polyester
- Soft and skin-friendly texture

Specifications
