

Item no. 323/883

Manufacturer's no. FA30130

Solar Panel FLAT AIR NL FA 130 M, 130 Wp

Information

Dimensions	1180x610x18 mm
Pack size	120x64x6 cm
Net weight	6.3 kg
Gross weight	7.5 kg
Catalogue page	600

The monocrystalline 130 Wp panel is integrated into a flat, lightweight PUR mounting frame, which is glued directly onto the vehicle roof without drilling. The construction, with a height of 18 mm, ensures good ventilation and thermally decouples the panel and roof, so that the performance remains stable even at high temperatures, protecting sensitive roof surfaces.

The walkable panel is screwed onto the mounting frame and can be easily removed if necessary. The junction box and cable routing are located on the underside. The three-metre-long MC4 cables can be routed out of the frame sideways or to the rear and plugged into the NL Solar MC4 roof cable routing.

Specifications

Number of panels	1
Nominal power solar panel(s)	130 Wp
Type	NL FA 130 M
