Pundmann relaisBoard – 12 V/20 A relay kit with LED push button

The Pundmann relaisBoard is a compact solution for reliable switching of 12 V consumers. Ideal for motorhomes, vans, boats or trailers. The module combines a powerful 20 A relay with a robust LED push button, allowing consumers to be controlled cleanly, safely and with direct feedback.

Features:

- Load capacity up to 20 A – suitable for lamps, pumps, fans and other 12 V consumers
- LED push button – clear switching status indication for better control
- Compact board design – easy to install, even in tight spaces
- Neat wiring – screw or plug terminals (depending on version) for quick installation
- Universally applicable – suitable for vehicles and recreational vehicles of all kinds

Advantages in use:

- Stable switching performance even at higher currents

Specifications

Colour	grey
Material	plastic
Nominal voltage	12 V
Nominal current	20 A

- Visual feedback via the LED push button
- No additional switch required
- Ideal as a retrofit solution or for individual conversion projects
