Compostable Waste Bags 10 L

Information

Dimensions	13x3x5.5 cm
Pack size	13x5.5x3 cm
Net weight	100 g
Gross weight	100 g
Catalogue page	473

Compostable waste bags from Trelino® – robust, odour-tight and certified for home composting

The compostable waste bags from Trelino® have been precisely designed for most separating toilets. Thanks to their extra-strong material (25 µm), the 10-litre variant in particular offers high tear resistance and leak protection – even with extended use. The integrated vapour barrier reduces the formation of condensation and helps to minimise unpleasant odours.

The bags are made from renewable raw materials and are certified with the TÜV seal **OK compost HOME**. They can be composted at home according to the certification requirements.

Thanks to the black-green colouring, the contents remain discreetly concealed – ideal for unobtrusive disposal on the go or at home.

- Suitable for common separating toilets
- Extra-strong material (only for 10 l)
- TÜV-certified: OK compost HOME
- Certified for home composting

Specifications

Colour	dark green
Content	10 pieces
