

Item no. 320/926
Manufacturer's no. AQT-T (DE)

Flashlight AQUA TAC

HYDRACELL
POWERING A POSITIVE FUTURE

Information

Dimensions	23x3.5 cm
Pack size	30x8x5 cm
Net weight	150 g
Gross weight	250 g

Flashlights from HydraCell are equipped with innovative, water-activated TC energy cells and a high-quality Cree LED. Thanks to the energy cells, your need for disposable batteries is greatly reduced. The Cree LED provides long-lasting, bright illumination with an impressive light output of 200 or 350 lumens.

Robust and flexible

Be it while camping, hiking or in emergencies, the LED flashlights from HydraCell are a reliable companion. Shock-proof and splash-proof in compliance with IP65, they can withstand even harsh conditions. In addition, thanks to the continuously adjustable lens, you can choose between a sharply focused beam of light and a wide-illuminating flashlight – depending on what is needed at the moment.

Perfect for emergencies

In emergencies, you can easily dip the energy cells into a liquid to (re)activate them. It does not matter which liquid you use, as long as it is not oil-based. For example, rainwater, stream water, seawater or even dirty water nearby can provide you with energy.

The AQUA TAC is equipped with a 360° LED light ring for illuminating areas and surfaces and has a luminous range of 150 m. The integrated hand strap ensu-
