

Item no. 311/306
Manufacturer's no. KS382

Cable Set on Gas Detector

TOPTRON powered by  frankana group

Information

Dimensions	1.5 x 17.5 cm
Pack size	27 x 17.5 x 1.5 cm
Net weight	40 g
Gross weight	40 g

The Toptron CPU cable set for gas detectors connects the existing CPU control unit to a standard gas detector. The prerequisite is a separate potential-free output on the gas detector to which the cable set can be fitted. By linking the CPU gas cut-off and the gas detector, the gas supply is interrupted immediately if gas is detected inside the vehicle.

Scope of delivery CPU cable set gas detector:

Ready-made cable set with 2 m cable (2-core) for connection to an existing CPU control unit and a gas detector (not included) with separate potential-free output.

Specifications

Cable length 2 m
