The water distributor for recreational vehicles is the ideal solution for a reliable water supply when travelling. With fixing holes and straight screw-in nozzles (outer ø 10 mm), this distributor enables centralised water distribution at your destination. Thanks to its optimised flow rate, it ensures maximum efficiency, while frost resistance ensures that it can withstand extreme temperatures. Whether you are travelling by motorhome, caravan or boat, this water distributor ensures that you are always supplied with water. Rely on this high-quality solution for your holiday water supply!
