Two-Cylinder System 1.5 kg/h with Automatic Switch Valve Type AUV

GOK

Information

Pack size	42.5 x 19.2 x 16.5 cm
Net weight	2.47 kg
Gross weight	2.47 kg

Two-cylinder system for connection to gas cylinders with a maximum filling weight of 16 kg, for pressure regulation to the nominal pressure of the gas appliance.

Consists of:

- 2 x high-pressure hose lines with small cylinder connection
- Unit with automatic switch valve type AUV with control button
- Operating and reserve indicator
- Check valve
- Low-pressure regulator type EN61-DS with overpressure safety device S2SR (ÜDS)
- Testing device
- Wall bracket

KLF x RVS10 AUV UEDS

- A cylinder change is possible without interruption of operation.
- Check valve: prevents gas flow breakthrough during cylinder change.
- Testing device for leak testing of the liquefied gas system without dismantling the pressure regulation device.

Specifications

Operating pressure	50 mbar
Max. pressure: PS	16 bar
Type	AUV
