Blue Smart IP22 Charger is a professional battery charger with built-in Bluetooth! Blue Smart IP22 Charger can be used with devices in your workshop or with motor vehicles such as (classic) cars, motorbikes, boats and motorhomes.

The wireless solution for monitoring voltage and current, changing settings and updating the charger when new functions are available. With an efficiency of up to 94%, these chargers generate up to four times less heat compared to the industry standard. The Blue Smart Charger has a microprocessor-controlled „adaptive“ battery management system. The adaptive function automatically optimises the charging process depending on the way the battery is used.

### Specifications

|                     |                               |
|---------------------|-------------------------------|
| Connection          | 3 outputs                     |
| IP protection class | IP22                          |
| Cable length        | 1.5 m                         |
| Charging current    | 20 A                          |
| Nominal voltage     | 12 V                          |
| Type                | Blue Smart IP22 Charger 12/20 |
