## Side Window Blackout Blind SP 300 for Recreational Vehicles

### Information

|                |                    |
|----------------|--------------------|
| Pack size      | 111 x 80 x 16.5 cm |
| Net weight     | 2.4 kg             |
| Gross weight   | 8.4 kg             |
| Catalogue page | 358                |

The set consists of blinds for the left and the right side window.

- Double-pleated honeycomb material for optimum insulation against heat and cold
- New guide panel for more privacy and better darkening
- Compared to other systems quick and easy to install without having to remove door components
- Approx. 40 mm left clear for better visibility of the small passenger mirror
- Ultra-flat handle for comfortable handling
- Impeccable look – like an integrated solution ex factory
- Lightweight, only 1.2 kg per side – significantly lighter than other available systems
- Perfectly geared to the Fiat Ducato models X250 and X290, as well as to the identical Facelift Peugeot Boxer and Citroën Jumper 2024 models

### Specifications

|               |                                                                                                                                                                                               |
