Pundmann Therm AIR boiler with a capacity of 6 or 9 litres and a 12/24 V or 230 V heating element. Suitable for use in recreational vehicles such as motorhomes and caravans, as well as yachts and coaches. The water can be heated via the connection to an air heater. While driving, the 12 V on-board electrical system can be used to heat the water via the heating element. Alternatively, choosing the 230 V heating element is ideal for heating water at the campsite.
