Anyone who has little space and is travelling in a van, for example, will love the TWISTER series. When the tap is not needed, it can simply be folded down to a height of 40 mm and disappears out of sight under a cover. However, when it is in use, there is no need to hide it in any way: As a fully-fledged, high mixer tap, TWISTER not only impresses with maximum ease of use, but also looks really good. The compact design is available in elegant and easy-to clean matt black or with a high-gloss chrome finish. Rotates 360°. With switch and comfort aerator.
