Manufacturer's no. OCP-A-1

Microfibre Cloth One Cut Plush

Information

Dimensions	40x40 cm
Pack size	22 x 16 x 5 cm
Net weight	130 g
Gross weight	200 g
Catalogue page	413

The super soft and gentle Plush microfibre by fens is ideal for a wide range of applications. It gently absorbs moisture and the last small bits of dirt, such as those often found in doorsteps and other hard-to-reach places after cleaning. It is particularly suitable for sensitive paintwork (including matt paintwork), wheel rims, metal and plastic parts. The automotive One Cut Plush microfibre cloth is also the first choice for removing polishes.

With its size, the One Cut Plush is perfect after the car wash. It is also ideal as a complement to the larger Two Cut when drying by hand and for polishing.

Like all fens cloths, the One Cut Plush is more than just a cloth. Simply put your hand through the integrated hand slit (cut) and from then on the microfibre cloth sits firmly on your wrist. No more falling off. Always clean and ready for use. It could not be more convenient. This makes it easier for you to work on areas with a lot of detail, where you have to reach around in a complicated way with conventional cloths. It prevents the cloth from falling into the dirt, even when you are working all the way down. Scratches in the paintwork are therefore a thing of the past. It optimises the result because you never have to work with an awkwardly folded cloth

Specifications
