

Item no. 322/080
Manufacturer's no. LED63STG4L

LEDs G4, 3.2 W

Information

Dimensions	44x 16.5 mm
Pack size	20x9.5x2 cm
Net weight	11 g
Gross weight	26 g
Catalogue page	557

LEDs are unbeatable when it comes to energy efficiency. The light qualities and application possibilities have increased enormously. They hardly develop any heat, light up immediately and are dimmable and available for almost all lamps. With LED light technology, you can save energy and costs.

- LEDs are switch-resistant, therefore more durable
- No fading of natural materials (no UV/IR radiation)
- Little insect orientation
- No soiling of ceilings/walls through heat development
- No mercury (lower disposal costs)
- Light colour: warm white

The lamps are not vehicle parts according to §22a StVZO. No CAN bus support. Car control units are not compatible.

These lamps are only suitable for interior lighting in motor-homes, caravans and boats.

Specifications

Beam angle	300°
Dimmable	No
Energy efficiency class	F
Colour	warm white
IP protection class	IP20
Luminous flux	360 lm
Nominal capacity	3.2 W
Nominal voltage	10 – 30 V
Base	G4
Type	63er SMD Turm10 (2700 K)
