Manufacturer's no. 0111340

Low Pressure Regulator Type EN61 1.5 kg/h Marine

GOK

Information

Pack size	14.5x7.4x8.3 cm
Net weight	378 g
Gross weight	378 g

Gas regulator with pressure gauge for connection to gas cylinders, for pressure regulation to the nominal pressure of the gas appliance.

- Corrosion-resistant according to EN 16129, Annex M
- Safety relief valve PRV, response pressure 150 mbar
- An exhaust line can be installed on the pipe nozzle (8 mm) to discharge excess pressure.

Specifications

Connection	KLF x G 1/4 LH-KN
Operating pressure	50 mbar
Max. pressure: PS	16 bar
Type	EN61
