The intelligent battery monitor for perfect control

The SB Touch Display for the Super-B Nomia 210/340 Ah is your ideal companion to keep an eye on the condition of your battery. This state-of-the-art battery monitor offers you the ability to precisely display voltage, current, charge status, as well as the remaining charge and discharge time. This way, you always know exactly how long your battery will continue to function and can plan accordingly.

Diverse areas of application

Be it on the go, while camping or in professional applications – the SB Touch Display ensures optimal control and safety.

It is specially designed to provide the appropriate display depending on the battery, to always deliver the correct information to you.

User-friendliness at the highest level

With its 2.4-inch TFT colour screen and a resolution of 320 x 240 pixels, the front display provides a clear and sharp representation of all relevant data. Additionally, the display can be set in six different languages (German, Dutch, English, French, Italian, Spanish), making it particularly user-friendly and facilitating international use.

Specifications
