

Item no. 322/221

Manufacturer's no. 9620000189

Isolating Relay 140 A

BÜTTNER
→DOMETIC

Information

Dimensions	6.8x6.8x5 cm
Pack size	8.7x8.5x6.4 cm
Net weight	200 g
Gross weight	346 g
Catalogue page	592

The voltage-dependent isolating relay with a switching capacity of up to 140 A automatically connects the starter and RV batteries as soon as the voltage of the starter battery rises while the engine is running. This ensures that the RV battery is reliably charged. If the voltage drops below 12.8 V, the relay disconnects both batteries again to prevent the starter battery from discharging.

Specifications

Nominal voltage	12 V
Nominal current	140 A
Type	Duo Relais MT RE 140
