The Truma iNet X Connect remote module allows you to use the Truma iNet X app while on the go. You can now conveniently control your devices connected to the Truma iNet X system remotely and view status displays without having to be near your vehicle.

The remote module is connected via a cable to the Truma iNet X panel or the Aventa 2nd generation (with interface). Once the Truma iNet X app is connected to the panel, Truma iNet X Connect is automatically detected and switches to a welcome screen in the Truma iNet X app. The service is activated in just a few steps, and you are ready to go.
