

Item no. 323/948

Manufacturer's no. RSHST-B02P300-G1-DE

Battery Shunt 300

Information

Dimensions	13x10x3 cm
Pack size	20x15x5.5 cm
Net weight	300 g
Gross weight	460 g

The Renogy Battery Shunt 300 enables precise real-time monitoring of your battery system. In conjunction with the Renogy ONE Core and the DC Home App, you can keep important values in view at all times – conveniently via smartphone or tablet, even remotely.

The intelligent shunt clearly displays key system data such as state of charge, battery temperature and starter battery voltage. Additionally, historical data is stored, allowing you to better track the development of your system. System warnings help to detect potential anomalies early.

This way, you always have the performance and condition of your battery system under control – ideal for reliable energy monitoring on the go or in stationary use.

Specifications

Colour	black
Content	1 piece
Nominal voltage	12 V 24 V
Nominal current	300 A
