

Item no. 322/724

Manufacturer's no. SHU050130050

Battery Monitor SmartShunt, 300 A

Information

Dimensions	12 x 4.4 x 4.4 cm
Pack size	15 x 15 x 7.5 cm
Net weight	200 g
Gross weight	300 g
Catalogue page	583

The SmartShunt is an all-in-one battery monitor that uses your phone as a display. The SmartShunt connects via Bluetooth to the VictronConnect app on your phone (or tablet), allowing you to conveniently read all monitored battery parameters, such as state of charge, remaining time, historical information and much more.

Alternatively, the SmartShunt can be connected and read by a GX device. The connection to the SmartShunt is made via a VE.Direct cable.

The SmartShunt is a good alternative to a BMV battery monitor, especially for systems where battery monitoring is required but less wiring and chaos are desired. The SmartShunt is equipped with Bluetooth, a VE.Direct connection and a connection that can be used for monitoring a second battery, monitoring the midpoint or connecting a temperature sensor. Input voltage: 6.5 – 70 V DC.

Specifications

Nominal current	300 A
Type	SmartShunt 300A/50mV
