

Item no. 322/738
Manufacturer's no. V0009220

Battery Charger Blue Smart IP65, 15 A

Information

Dimensions	19x6x10.5 cm
Pack size	27x20.5x6.5 cm
Net weight	900 g
Gross weight	1.23 kg
Catalogue page	576

The Blue Smart IP65 charger is a professional battery charger with built-in Bluetooth. It can be used with devices in your workshop or with motor vehicles such as (classic) cars, motorbikes, boats and motorhomes.

The seven-stage charging algorithm gets the best out of your battery. The charger provides the battery with the energy it needs, keeps it in a healthy condition, ensures better performance ... and a longer life.

Unlike other brands, the Blue Smart IP65 charger will attempt to recharge a deeply discharged battery by forcing a weak charging current onto it. Normal charging will then resume as soon as there is sufficient voltage between the battery terminals.

The charger is supplied with both crocodile clips and M8 cable lugs, making it very easy to connect to the battery. You can leave the device connected at all times if you wish.

The Blue Smart IP65 charger has built-in Bluetooth. This allows you to check the status of the charger and the battery on a smartphone, tablet or laptop. All charger settings can be configured using the VictronConnect app.

Technical data

Specifications

IP protection class	IP65
Cable length	1.5 m
Charging current	15 A
Nominal voltage	12 V

- Input voltage: 230 V AC
- Battery connection: 1.5 m black and red cable to DC plug
- Incl. battery terminals and M8 ring cable lug
- With CEE 7/7 connection (Schuko): 1.5 m
