The Cookvision Starter Set is perfect for every camping kitchen. With the high-quality pots and pans, great meals for the whole family can be cooked even when you are on holiday.

Be it induction, gas, electric or ceramic – the cookware is suitable for all types of stoves. Additionally, it takes up very little space in the caravan or motorhome, as all the pots, pans and lids can be stacked inside or on top of each other to save space.

The extra-strong thermo-sandwich base ensures optimum heat conduction and storage. If you remove the handles and lids, the pots and pans can also be used in the oven. The pan is equipped with a high-quality, PFOA-free non-stick coating and is also perfect for serving the prepared food. The pots have a wide pouring rim for precise pouring and have a litre scale on the inside.

The lids made of shatterproof glass with a steam outlet on the side are non-slip and seal tightly. The patented long handle is ergonomic and easy to use with one hand. If the pan or pot become too heavy to carry with one hand, you can additionally attach one of the silicone handles to the
