Fresh Water Tank Cleaner abtyCAM, 0.5 kg

Information

Dimensions	8.5 x 11 cm
Pack size	11 x 11 x 8 cm
Net weight	500 g
Gross weight	520 g
Catalogue page	419

Cold water application

Cleans fresh water tanks and pipes, drains and grey water tanks easily in a short time, particularly suitable for water tanks in caravans, motorhomes and boats.

Application: Fill the fresh water tank completely with water. Use approximately 15 g (1/2 scoop) per 10 l of water. When exposed to water, the cleaner disintegrates into oxygen and mineral salts. To clean the fresh water tank, fill all pipes with the mixture. After two hours of contact time, simply drain the solution through all water pipes. Residues are harmless, therefore **rinsing is not necessary**. After the cleaning process, you can fill your fresh water tank with drinking water.
