USB String Lights Campinglight Afterglow

Information

Dimensions	10 m
Pack size	16.5 x 16 x 1.5 cm
Net weight	100 g
Gross weight	300 g

The Camplight string lights in the new Afterglow version offer even more flexibility for atmospheric evenings at the campsite. Equipped with 200 LEDs over 10 m in length, it provides pleasant lighting and can be switched between warm white and red light.

The red Afterglow light can reduce insects in the camp by up to 90%, creating a more pleasant outdoor atmosphere. Additionally, the string lights are infinitely dimmable, allowing you to individually adjust the brightness.

They are delivered in a high-quality dry bag with a zip, in which a power bank can be safely and securely stored during operation. With 260 lm, the Camplight Afterglow is a practical and versatile lighting solution for camping and outdoor use.
