Bug Buster Sponge for Dirt and Insects

RYF Solutions GmbH

Information

Dimensions	16x9x3 cm
Pack size	20x9x7 cm
Net weight	30 g
Gross weight	70 g

No more endless scrubbing: while conventional sponges often require minutes of rubbing for stubborn insect residues, the Bug-Buster sponge works like a rubber for dirt. The coarsely woven microfibre mesh side easily removes insects, tree resin and organic residues from the paint without stressing the surface.

Additionally, the sponge in the 2-piece set offers a smooth side for streak-free polishing of windows and paint parts.

Contents: 2 pieces

Weight: 30 g
