

Item no. 320/929

Manufacturer's no. TC1D-WHT2PK (DE)

TC Energy Cells TC1D

HYDRACELL
POWERING A POSITIVE FUTURE

Information

Dimensions	10x2.6 cm
Pack size	17x9x4 cm
Net weight	30 g
Gross weight	110 g

Energy cell in a 2-pack for the flashlights HydraCell Aqua-Tac and AquaFlash. The compact water-activated energy cell replaces regular batteries. To activate the energy cell, you simply have to immerse it in any kind of water for 15 seconds. Afterwards, you can shake off the water and insert the cell. Thanks to the innovative energy cell and its long service life, the number and therefore the weight of batteries needed is greatly reduced. In addition, the consumption of old batteries is reduced. Thanks to its high capacity, the energy cell ensures a reliable and long-lasting light output of the flashlights. The energy cells are equipped with plastic housings of.

(*) occasional reactivation required

Suitable for the HydraCell Aqua Tac or Aqua Flash flashlights. A single TC1D HydraCell power cell provides 60+ hours of total runtime*, comparable to the performance of over 15 AA premium alkaline batteries.
