Stainless Steel Gas Stove Turbo, 2 burners

Information

Dimensions	70 x 11.5 x 40 cm
Pack size	70 x 39 x 12 cm
Net weight	5.5 kg
Gross weight	6.7 kg
Catalogue page	495

Turbo stainless steel gas stove – efficient gas technology for maximum performance

The Turbo stainless steel gas stove impresses with its advanced gas technology. Thanks to the innovative turbo effect, the mixing of gas and oxygen is optimised, leading to a more concentrated combustion. This significantly reduces gas consumption and thus saves energy. At the same time, the gas stove maximises heat generation, allowing for faster and more effective cooking of food.

All models are equipped with a reliable flame failure device and a convenient piezo ignition. The high-quality stainless steel construction ensures exceptional corrosion resistance, greatly extending the stove's service life.

Flexibly usable at 30 mbar and 50 mbar without switching. The power specifications refer to operation at 30 mbar.

Scope of delivery: the gas stove is supplied without hose and regulator.

Specifications

Operating pressure	30 mbar | 50 mbar
Colour	blue
Burners	2 burners
Gas consumption	500 g/h
Material	stainless steel
Nominal capacity	7 kW
Safety pilot	Yes
Ignition system	Piezo ignition
