

Item no. 610/473
Manufacturer's no. 30120

Magnet A-System Squareline with Threaded Sleeve

Information

Dimensions	3.5x0.6x2.25 cm
Pack size	3.5x2.5x0.6 cm
Net weight	22 g
Gross weight	32 g

Magnetic systems with rubber coating are true all-rounders and can be found in many areas. The systems are particularly suitable for use on sensitive surfaces and thin sheets, as well as for vertical applications. They are also well-suited for outdoor use.

Unlike round magnetic systems, these systems can be positioned in a form-fitting manner.

Threaded sleeve M4 x 6 mm

Holding force: 93 N/3.8 kg

* The forces were determined at room temperature on a polished steel plate (S235JR according to DIN 10 025) with a thickness of 10 mm (1 kg ~ 10 N). A deviation of up to -10% from the specified value is possible in exceptional cases. Generally, the value is exceeded. The type of application (installation situation, temperatures, counter anchors, etc.) can significantly influence the forces. The specified values are for orientation.

Specifications

Colour	black
Material	rubber
