The stackable carafe. The voluminous carafe holds 1.5 litres, is beautiful to look at and best of all, it is stackable. At last, you no longer have to limit how many carafes you buy. And you are sure to want more than one! The robust material is unbreakable and keeps drinks cool for a long time. The lid has two different pouring openings, so that ice cubes and lemon slices stay reliably in the carafe. If you turn the lid by 90 degrees, the carafe is completely sealed and the contents are protected from insects and dust.
