Solar Panel Fusion 170 Wp for VW T5 and VW T6.1 California

SOLARA®
 module. komponenten. systeme

Information

Dimensions	1270x850x20 mm
Pack size	129x86x5 cm
Net weight	9 kg
Gross weight	10.5 kg

The flexible solar panel set has been specially designed for all VW T5 – T6.1 models with the original California roof. It fits perfectly into the roof shape, remains extremely flat and impresses with its low weight – ideal for those who value efficiency and discreet design.

Thanks to the latest cell technology, the system reliably provides energy even in diffuse light. It can be installed without gluing, removed without residue and allows full use of the roof rail thanks to the supplied Airline rail – even with the panel installed.

- Suitable for all VW T5 – T6.1 models with the original California roof
- Perfectly adapted to the roof shape – minimal mounting height and particularly light weight
- Incl. Airline rail – roof rail remains usable even with the solar panel installed
- Incl. solar charge controller Victron SmartSolar 75/15
- Additional cells for higher charging efficiency
- High yield in every season thanks to excellent low-light performance – even in diffuse light
- No gluing required – removable without damage
- Special, highly light-transmissive ETFE film for maximum

Specifications

Number of panels	1
Nominal power solar panel(s)	170 Wp
Frame colour	black
Daily output	680 Wh
Type	S750M41

durability

- Cables invisibly integrated
- 5-year manufacturer's warranty

The set consists of:

- SOLARA solar panel Fusion S750M41, 170 Wp, 12 V
- Spiral adapter cable for Fusion series
- Edge protection sealing profile – PVC/EPDM (spoiler lip) for SOLARA Fusion Set
- EPDM cellular rubber, self-adhesive, for SOLARA Fusion Set
- Victron SmartSolar MPPT 75/15
- DC-Connect-B connection cable M8/1.5
- Airline rail, trapezoidal, for SOLARA Fusion set
- Countersunk screws with hexagon socket V4A for SOLARA Fusion set
- Sliding nuts for SOLARA Fusion set
- Installation instructions for SOLARA FUSION set
