Camping Stove BlueCraft

BLUECRAFT

Information

Dimensions	60x10x33 cm
Pack size	61.5x35x11.5 cm
Net weight	3.2 kg
Gross weight	3.8 kg
Catalogue page	493

With the gas stove, you can prepare your meals comfortably and enjoy it. The two burners each have an output of 2.2 kW. The sturdy enamelled pan supports ensure that the pots and pans are held securely. Whether you are camping or in the garden – this gas stove is ideal for outdoor cooking!

The integrated **flame failure device** for each burner ensures that the gas supply is interrupted as soon as the flame goes out, e.g. due to a draught. This safety feature should not be missing on gas-powered appliances and is for your own safety.

When purchasing mobile gas appliances of any kind, please note that gas connections with hose clamps are not permitted in Germany. The gas connection must be made using a screw connection. A threaded connection with a union nut is common there.

Technical data:

- Stainless steel burner cap
- Very sturdy enamelled pan supports
- 2-stage regulation

What you also need for operation:

Specifications
