All-In-One Solar System Flat Light Q, 340 Wp

BÜTTNER
→ DOMETIC

Information

Dimensions	980x980 mm
Pack size	108.5 x 107.5 x 14 cm
Net weight	10.8 kg
Gross weight	14.4 kg
Catalogue page	597

The solar panel by Büttner Dometic has been developed especially for pop-tops or high roofs for camper-vans, vans, camping busses or as a walk-on version at your motorhome's roof. The module unites high manufacturing quality and a maximum of solar power. Thanks to the square construction, it is possible to operate power consumers such as compressor refrigerators, and/ or power inverters self-sufficiently - even with limited space and battery capacity available. With the adhesion to high roofs, it is possible lead the connection cable within the solar module down in the middle. For this 42-cellular high-performance module, a MPP solar controller is mandatory.

All-in-one solar system with the established MT Flat Light installation components: ultra-flat solar panel(s) with crystal-line cell technology; MPPT solar controller with Bluetooth and temperature sensor; cable routing to the roof; cable kit with EBL, mounting material, mounting instructions.

Specifications

Number of panels	2
Nominal power solar panel(s)	340 Wp
Daily output	1500 Wh
Type	MT 340 FLQ
