

**Item no. 322/063**  
**Manufacturer's no. LED12STG4L**

## LEDs G4, 0.6 W

### Information

|                |                 |
|----------------|-----------------|
| Dimensions     | 28.5x9 mm       |
| Pack size      | 19.9x9.5x0.6 cm |
| Net weight     | 14 g            |
| Gross weight   | 14 g            |
| Catalogue page | 557             |

LEDs are unbeatable when it comes to energy efficiency. The light qualities and application possibilities have increased enormously. They hardly develop any heat, light up immediately and are dimmable and available for almost all lamps. With LED light technology, you can save energy and costs.

- LEDs are switch-resistant, therefore more durable
- No fading of natural materials (no UV/IR radiation)
- Little insect orientation
- No soiling of ceilings/walls through heat development
- No mercury (lower disposal costs)
- Light colour: warm white

The lamps are not vehicle parts according to §22a StVZO. No CAN bus support. Car control units are not compatible.

These lamps are only suitable for interior lighting in motor-homes, caravans and boats.

### Specifications

|                         |                      |
|-------------------------|----------------------|
| Beam angle              | 300°                 |
| Dimmable                | Yes                  |
| Energy efficiency class | F                    |
| Colour                  | warm white           |
| Luminous flux           | 72 lm                |
| Nominal capacity        | 0.6 W                |
| Nominal voltage         | 10 – 30 V            |
| Base                    | G4                   |
| Type                    | 12er SMD G4 (2700 K) |
