LED Rope Tensioning Set Warm White

Information

Pack size 18x18x23 cm

Net weight 300 g

Gross weight 350 g

The LED rope tensioning set is ideal for tensioning and securely fixing awnings, tents or canopies. The two 3.5 m long LED ropes can be flexibly connected with the 2.5 m extension and each can bear loads of up to 150 kg. Thanks to weather-proof and UV-resistant material, the set is perfect for outdoor use.

The warm white lighting not only creates a pleasant atmosphere but also helps to make trip hazards more visible in the dark. At the same time, the brightness can be continuously dimmed and individually adjusted via the controller.

Operation is conveniently via USB-C, for example with a power bank, phone adapter or fixed socket in the camper. A practical dry bag is also included for storage or to protect the power bank.

Specifications

Colour warm white

Luminous flux 280 lm

Nominal capacity 9 W

Nominal voltage 5 V

Nominal current 1.5 A
