The **premium scent blocker litter by Trelino®** in cooperation with Goldeimer is perfect for composting toilets. It dries out solids and reduces odour formation. Due to its nutrient-rich, organic components, Trelino® litter is used to produce high-quality Terra Preta (dark soil).

The absorbent charcoal stores water and, together with the effective microorganisms (EM), provides an optimal basis for revitalised soil.

Sufficient for 40 trips to the toilet.

Application

Pour a full cup of Trelino® litter over the solids until they are covered. Store the Trelino® scent blocker litter in a safe and dry place and use within 3 months.

Composition

- Fine coal (70%)
- Basalt rock flour
- Zeolite
- EM ceramic powder
- Effective microorganisms
