Pack size	48.5 x 46.5 x 39.5 cm
Net weight	6.8 kg
Gross weight	6.8 kg
Catalogue page	465

No water, but 100% comfort: Arwinger cassette separating toilet

With the Arwinger cassette separating toilet kit, you can convert your Thetford chemical toilet from the C250/C260 series into a separating toilet. Benefit from all the advantages of a separating toilet without having to compromise on the comfort and design of your built-in cassette toilet, especially the convenient and practical removal through the service hatch.

The upper part of the bowl of your chemical toilet is replaced by the Arwinger cassette separating toilet kit seat part. You can carry out the conversion by yourself using the included instructions without any specialist knowledge. The seat part ensures the separation of solids and liquids.

Both are collected by the Arwinger cassette separating toilet kit cassette, which is positioned in the service compartment and replaces the Thetford chemical cassette one-to-one. The solids fall into the open container of the cassette, which is equipped with a bag, while the liquid is directed through the hose into the tank of the cassette. Both cassette parts can be separated for emptying. The container for solids has a volume of approximately 9 litres, while the liquid container

Specifications

Colour white, black

has a capacity of about 7.7 litres. The fill level of the liquid tank can be read using an optical level indicator.

After converting the bowl, the seat and lid of the chemical toilet are attached to the new seat part, and your Thetford toilet looks as good as before.

- Professional, complete conversion kit
- For easy and quick self-conversion
- Perfectly designed for your chemical toilet model
- Seat part produced using deep-drawing for high quality and premium surface
- Separately emptyable solid and liquid containers
- Design and rotation of the chemical toilet as well as appearance and sealing in the bathroom remain intact
- Completely reversible if necessary

Technical data:

Seat part with separation function

- Material: ABS/PMMA plastic
- Colour: white
- Dimensions (W x D x H): 390 x 430 x 150 mm
- Inner diameter: lengthwise approx. 305 mm, crosswise approx. 255 mm
- Inner diameter solid outlet: 160 mm
- Weight: 1025 g

Cassette

- Material: polyethylene
- Colour: black
- Dimensions (W x D x H): 250 x 500 x 250 mm
- Weight: 1985 g

Scope of delivery:

Seat part with separation function

- Seat part, ABS/PMMA, PVC
- Sleeve, silicone
- Sleeve attachment, PETG, polyamide
- Hose connection, brass
- Urine hose, PVC
- Ball valve, PP
