High-quality flat solar panels designed for direct adhesion to the vehicle roof. When fully adhered, the monocrystalline panels can be walked on. Thanks to the use of a reinforced, extremely durable UV-resistant film coating, the NL FLAT TYPE solar panels lead in quality/price/performance comparisons. These flat solar panels, specially developed for recreational vehicles, are equipped with monocrystalline high-performance cells. The junction box is designed to be extremely flat and walkable. The connection cables (3 m) are fitted with MC4 connectors and are prepared for the NL Solar MC4 roof cable routing.
