

Item no. 322/935
Manufacturer's no. 104489

Superseal Socket Housing, 6

Information

Dimensions	4x2x3.5 cm
Pack size	4.2x2.9x1.6 cm
Net weight	7 g
Gross weight	7 g

The AMP Superseal connectors are not only in demand in the field of waterproofing but also when it comes to resistance to aggressive environmental conditions such as ozone, salts, petrol, diesel, brake fluid and engine oils. To connect two cables, you need the Superseal socket housing and the matching Superseal pin housing (item no. 322/924 – 322/929).

Specifications

Content	1 piece
Material	PA polyamide
Nominal voltage	24 V
Nominal current	14 A
pin	6 pin
