Changeover Valve AUV 6 kg/h 1 bar

GOK

Information

Pack size	19 x 15.2 x 16.5 cm
Net weight	1.3 kg
Gross weight	1.3 kg

The changeover valve AUV 6 kg/h 1 bar is suitable for installation in multi-cylinder systems and ensures a continuous gas supply. As soon as the operating cylinder is empty, the switch to the reserve cylinder happens automatically.

An operating and reserve indicator shows the current status. The desired operating cylinder is set via the control button. The integrated check valve increases safety. A wall bracket is included for secure installation.

- Mounting option for retaining rail
- For outputs above 4 kg/h, the automatic changeover valve also serves as the control unit for the first stage.
- Cylinders can be changed without interrupting operation.
- Check valve: prevents gas flow from escaping when changing cylinders.
- With optimised visual display

Specifications

Operating pressure 1 bar
